2. Type your note. You can make the note only visible to you. If you don’t check that box, everyone can see your note. Regardless of who can view the note, it is still subject to FERPA. Checking the student’s name does not mean that the student will get an email about the note. It means that if the student logged into the Navigate platform, they could see the note if the student has access.
How to View Notes and Appointment Summary Reports

1. To view notes and appointment summary reports, click on the “History” tab on the student’s page.

2. Once on the “History” tab, scroll down to the “[Student Name]’s History” section. How to Upload a Student List via Batch

1. Before you start in Pathways, you will need to create a .csv file in Excel. The spreadsheet should be simply a header and a list of PeopleSoft IDs of the students that you want to include in your Student List.
